

# Lab: HTML and CSS Overview

## Welcome to HTML

Create a Web Page like the following.

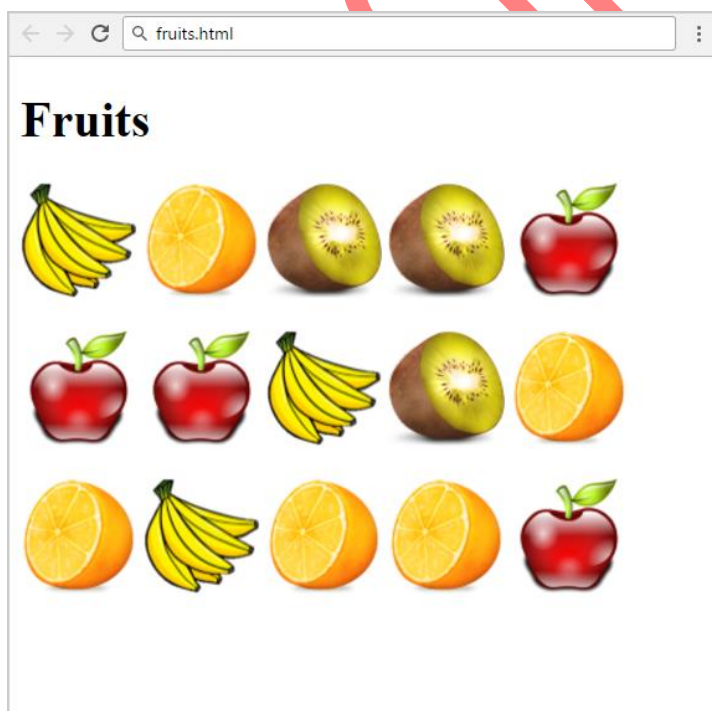

Create "**welcome.html**"

## Constraints

- **Title: Welcome**
- **<strong>** tag for **bold** text
- **<p>** tag for paragraph

## Fruits

Create a Web Page like the following.

---

Create "**fruits.html**"

## Constraints

- **Title: Fruits**
- **<h1>** tag for **heading**
- **<img>** tag for **images**

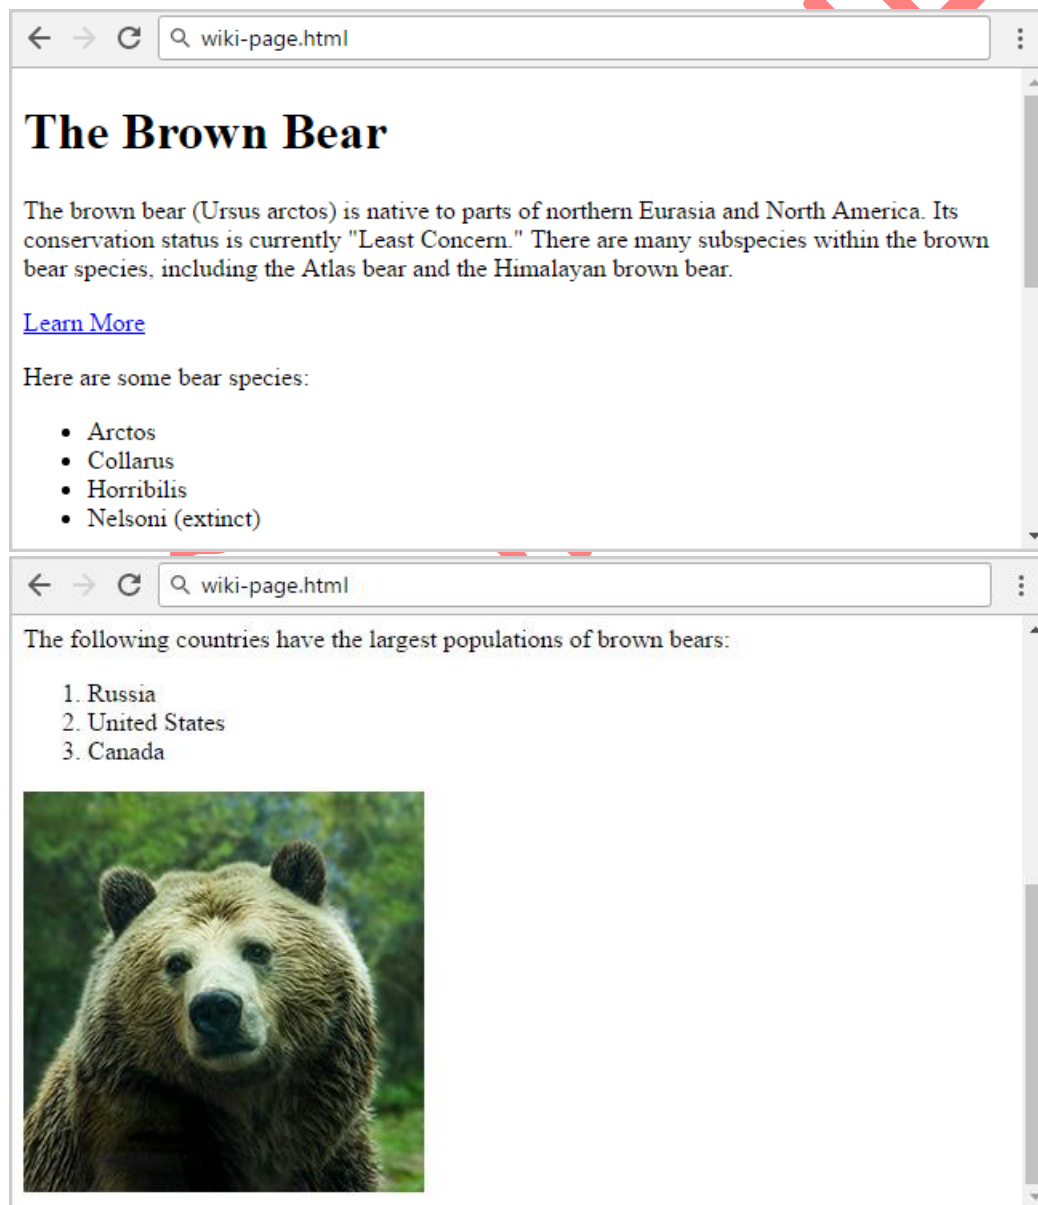

## Hints

## Use:

- Use 3 **paragraphs**, each holding 5 images

## Wiki Page

Create a Web Page like the following.

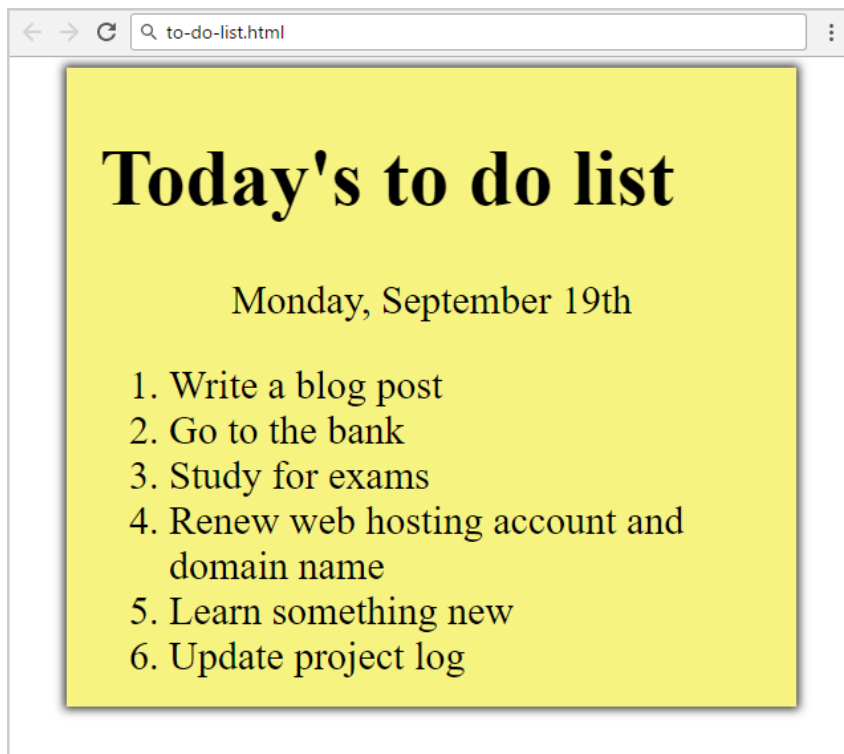

Create file: "wiki-page"

#### Constraints

- Title: **The Brown Bear**
  - `<h1>` for heading
- Hyperlink: [https://en.wikipedia.org/wiki/Brown\\_bear](https://en.wikipedia.org/wiki/Brown_bear)
- Text: **use paragraph**
- List: **use ordered list and unordered list**
- Image: **bear.jpg**

#### To Do List

Create a Web Page like the following

Create two files: "to-do-list.html" and "to-do-list.css"

#### Constraints

- `<div>` with `class="my-list"` as container
  - Background color: `#f7f381`;
  - Padding: `8px 24px`;
  - Width: `500px`;
  - Text size: `30px`;
  - Border: `1px solid #f7f381`;
  - Background Color: `#f7f381`;
  - box-shadow: `0 0 10px 2px #333333`;

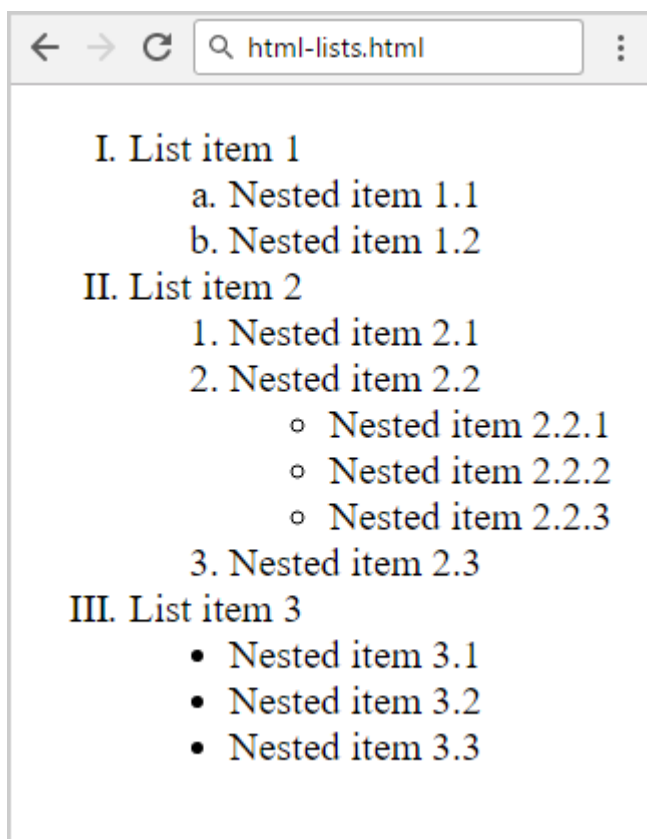

- `<ol>`
  - Margin: **12px**;
- `<p>`
  - Center the text

#### Hints

- Center the **container**
- Heading: use `<h1>`
- Date: use `<p>` + center it
- List: use `<ol>`

#### HTML Lists

Create a Web Page like the following

Create file: "**html-lists.html**"

#### Hints

Use: `<ol>`, `<ul>` and `<li>` and `<span>` for List Item 1, List item 2 and List Item 3
